

## WoWs event

### Format:

Two teams 7 vs 7 with somewhat strict objectives, ship requirements and restrictions.  
Best of three.

### Ships:

One tier 10 battleship. Six tier 5 or lower any other ships. Premium and unavailable ships are allowed.

### Restrictions:

Battleships are NOT allowed to use main guns, secondaries, antiair and speed boost.

They HAVE to move at exactly 3/4 speed from the start of the match till the end.

Everything else is allowed: maneuvering, ramming, repair, plane, heal, hydro.

Tier 5 or lower ships have no restrictions.

### Win condition:

First battleship reaching the destination at the other end of the map - beaching at the shore - regardless of remaining hit points. If both battleships are sunk or time runs out the match is considered a draw and has to be repeated with EXACTLY the same setup.
